

START/STOP unit for vacuum pump

START/STOP remote control unit for the VacuMove/VacuCobra vacuum pump.

NEW! gogreen STANDBY

Don't leave the vacuum lifter running when not in use!

By adding **gogreen STANDBY** to your remote control unit you can save both operator time and energy cost. The vacuum pump automatically shuts down when not in use within pre-set time span.

Includes transmitter with start/stop function, receiver and **gogreen STANDBY**:

- Art nr 692050 Remote control unit for vacuum pump SA320/2 (2,2 kW)
- Art nr 693050 Remote control unit for vacuum pump SA350/2 (3,0 kW)
- Art nr 694050 Remote control unit for vacuum pump SA200/2 (1,25 kW)

Above: Group of vacuum pumps, ceiling installation, with START/STOP receiver on each unit.

Below: The transmitter is placed on the vacuum lifter handle or somewhere else close to the operator.
